LinkedIn: www.linkedin.com/shashin-r985a2a321
GitHub: www.github.com/shashin2006

Education

Bachelor of Engineering Computer Science And Engineering

RMK College of Engineering And
Technology Puduvoyal, Thiruvallur
2023-2027(Present)
CGPA: 7.56

Higher Secondary School (PCM with CS)

March 2023 Christ Church Anglo Indian
Higher Secondary School, Chennai
Percentage: 82.33%

Skills

Languages: Java, Python, JavaScript

Web Technologies: HTML, CSS,
React.js, Node.js

Databases: MongoDB, MySQL

Concepts & Tools: Full-Stack

Development, AI Integration, LLMs,

Retrieval-Augmented Generation

(RAG), Machine Learning, Project

Management, Communication Skills

, HuggingFace (Basic)

ACHIEVEMENTS

- **Poster Presentation Participant, AIRSS**
IIT MADRAS
- Hackathon Participant, HackOxday
- Hackathon Participant, HackHub 2025
by Hackfinity

About Me

Dynamic and aspiring Full Stack Developer specializing in GenAI-driven applications. Proficient in the MERN stack and Python, with hands-on internship experience at Sinthan AI Academy implementing features using LLMs and Retrieval-Augmented Generation (RAG). A proactive problem-solver with strong project management skills, eager to build innovative and functional solutions.

Experience

FULL STACK GEN AI INTERN | Sinthan AI Academy - Chennai, India | June 2025-July 2025

- Developed full-stack applications driven by Generative AI, utilizing modern front-end and back-end frameworks.
- Implemented advanced features using Large Language Models (LLMs), including fine-tuning and Retrieval-Augmented Generation (RAG) techniques.
- Integrated AI models with frontend interfaces and backend APIs to enhance application intelligence and functionality.
- Participated in real-world development cycles, including conducting extensive code reviews to maintain quality standards.

AI/ML INTERNSHIP | Corizo | January 2024-March 2024

- Acquired foundational knowledge of core machine learning models and algorithms.
- Gained hands-on experience by applying theoretical concepts to practical datasets and projects.

PROJECTS

Course Recommendation Platform | January 2025-March 2025

- Designed and built an AI-powered online platform to provide users with personalized course recommendations.
- Implemented a key feature allowing students to connect with tutors for peer-to-peer knowledge sharing and support.
- Utilized React for the front-end and Node.js for the back-end to create a responsive and interactive user experience.

InvestIQ | November 2024-December 2024

- Designed and built an AI-powered online platform to provide users with personalized course recommendations.
- Implemented a key feature allowing students to connect with tutors for peer-to-peer knowledge sharing and support.
- Utilized React for the front-end and Node.js for the back-end to create a responsive and interactive user experience.

CERTIFICATIONS & COURSES

- Full Stack & GenAI Master Class Course
- MongoDB: Basics for Students, RAG Building, CRUD Operations, AI-Powered Vector Search
- AI & ML Online Course Completion
